Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's response filed 09/19/2007 is acknowledged.

Applicants cancelled claims 1-8 and 11-21.

Applicants added new claims 22-26.

Claims 22-26 are currently pending.

Response to Applicants Remarks:

Claim Rejections - 35 USC § 112 (written description)

Rejection of claims 1-6 and 12-21 (now claims 22-26 after entry of the amendment) set forth in the previous office actions is maintained. Applicant's arguments with respect to the first part of the rejections, lack of written description, set forth in the earlier office action is not persuasive. Applicants statements that the omission of some of the ingredients in the specification and working examples is due to clerical error is not persuasive because the missing elements are essential elements for the process of making the compounds of the invention. Applicant's state that one skilled in the art could consult literature as suggested by page 10, lines 6-7 of the specification. The reference cited on page 10, lines 6-7 do not adequately teach the processes needed for making the compounds of the invention. After further review of the specification, it is the Examiner's positions, that the specification is not enabling and lacks written description of the invention. One skilled in the art attempting to make applicants compounds would be misled by the omission of such essential elements, especially given the limited number of examples provided in the specification. The teachings of the specification are critical for the successful *making* of the claims (compounds) of the invention.

Claim Rejections - 35 USC § 112 (scope of enablement)

Applicant's amendments to the claims overcome the rejection under 35 USC § 112 (scope of enablement) set forth in the previous office action.

Conclusion

Applicant's amendments overcome part of the rejections set forth in the office action filed 03/26/2007. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Claims 22-26 are free of prior art.
